SUMMARY OF BIENNIAL MESSAGE OF GOVERNOR

Delivered to joint session of the General Assembly
of North Carolina at 12:00 noon, February 7, 1963

Note: The following summary was made from the prepared text of Governor Sanford's address which was distributed to the members of the General Assembly and to the press. Governor Sanford did nct read this text; instead he dealt with the important concepts and issues in his oral presentation.

Governor Sanford stated that he was not presenting the "Governor's Program" but was rather pointing out that there was much to be done and was pledging himself to work with the General Assembly in achieving the good things which were possible.

The Governor listed various areas of opportunity and concern, and described existing state programs and possible new approaches in each. These areas included Science, Agriculture, Commercial Fisheries, Tourists, Roads and Highways, Industrial Development, Schools, Talented Children, Retarded Children, Educational Television, Employment, Labor, Workmen's Compensation, Senate Redistricting, Insurance Laws, Election Laws, School Boards, Migrant Labor, Public Health, The Sanatorium System, Atomic Energy, Space Technology, Utilities, Rural Electrification, Mental Hospitals, Music, Drama, Art, Traffic Safety, Court Improvement, State Personnel, County Government, Cities and Towns, Community Planning, Recreation, Forests, Parks, Wildlife, Water Resources, State Ports, History, Library, Prisons, Paroles, Probation, Public Welfare, Schools for Blind and Deaf, Commission for the Blind, Veterans, Civil Defense Agency, National Guard, Medical Care Commission, Juvenile Correction, Higher Education, and Fiscal Affairs.

Governor Sanford either suggested that legislation would be beneficial, or indicated that legislation would be presented, in a number of specific areas. These included: control of roadside billboards; a permanent commission to establish a program for retarded children, an increase in the minimum wage, perhaps to $1.00; expansion of coverage and increase of maximum benefits in workmen's compensation; Senate redistricting in accordance with the Constitution with possibly a constitutional amendment providing for automatic redistricting in the future; minimum protection of migrant workers; air pollution abatement; regulation, licensing and supervision of atomic energy; revision of the utility laws, including a full-time legal advocate for the public and a full-time rate expert representing the public before the Utilities Commission, better definition of lines between private companies and cooperatives, changes in the method of increasing rates under bond prior to any hearing, and changes in the rate-making laws; additional support for research in mental health, and possible creation of a separate Department of Mental Health; a better traffic safety program (the Governor promised a later special message on this problem); effective beginnings of implementation of the court improvement amendment; higher salaries for professional personnel; changes in laws protecting rights of way and open spaces in cities and tightening of Powell Bill procedures to aid cities; protection of the shoreline against erosion; port development; construction of a Hall of History with facilities for the State Library; modification of the prisoner work release law to extend to longer sentences; expansion of rehabilitation programs for

youthful offenders, alcoholics, and inmates needing medical and psychiatric assistance; medical care for the indigent including implementation of the Kerr-Mills legislation; establishment of State Guard on a cadre basis to replace the National Guard if the latter should be mobilized in national service; implementation of the recommendations of the Commission on Education beyond the High School, by better definition of university, greater cooperation with private colleges, enrichment of the program at all state colleges, including establishment of 4-year colleges at Wilmington, Charlotte and Asheville, and development of a system of comprehensive community colleges.

SUMMARY OF BUDGET MESSAGE OF GOVERNOR SANFORD

Delivered to joint session of the General Assembly
of North Carolina at 10:30 a.m., February 8, 1963

Governor Sanford stated that he was using the occasion to discuss and emphasize major decisions contained in the budget, rather than merely re-stating the Budget.

General Fund

North Carolina is in excellent financial condition. We can continue to make sound progress without new taxes, and some tax relief will be recommended. In 1961 our per capita income increased 5%. State revenues also increased, though not so dramatically. The State begins the biennium with an opening balance of $104 million.

Official General Fund revenue estimates for the coming biennium total nearly $841 million. With the $104 million already available, we have a total of nearly $945 million with which to finance the General Fund program. To maintain State services at their present level -- the "A" Budget -- we need $814 million, ar increase of $35 million over the last biennium.

The accumulated needs of four years must be met in Capital Improvements appropriations. A total of $117 million is needed. Of this amount, $47 million is appropriated from the General Fund and the remainder can be raised by a legislative bond issue. The amount of bonds required will be only 2/3 of the amount by which the State's bonded indebtedness was reduced during the current biennium.

In considering the "B" Budget -- new or expanded services -- certain major decisions were made. In the field of education, we recommend an additional appropriation of $51 million to provide more teachers, five days sick leave per teacher, $4 per pupil aid for purchase of high school textbooks, salary increases for teachers of 3% the first year and 2% the second year, additional equipment for industrial education centers, and improvements in the school bus program and clerical help. We recommend $7 million to strengthen the faculties in our institutions of higher education. We recommend $2 million to convert community colleges at Wilmington, Charlotte and Asheville into 4-year institutions, and that $1 be available to develop a system of comprehensive community colleges; these needs were pointed out by the Governor's Commission on Education Beyond the High School.

In the field of correction, we recommend sizeable increases in the Probation and Paroles programs, and a corresponding leveling off of Prison expenditures. We recommend increases in the educational and rehabilitation services of the Prison Department. With these improved services, we hope to continue North Carolina's record of a decreasing prison population.

We are recommending an increase of $9 million for mental institutions. This provides for the increase in the number of mentally retarded children coming under the care of our institutions under the "A" Budget concept, and a significant improvement in the level of medical care and treatment service in all our mental institutions.

Following approval by the people of the Constitutional amendment authorizing salary increases for members of the Council of State, we recommend a salary of $18,000 for these officers.

Agriculture Fund

An increase of about $3 million is recommended for continued growth of a number of essential programs, including meat and poultry inspection, the Cooperative Agriculture Extension Service, the food and drug control program, and marketing programs for fruit and vegetables.

Highway Fund

Available funds will support the Highway and Motor Vehicles Departments at their present levels and will match all federal aid construction funds apportioned to North Carolina. By eliminating certain diversions from the Highway Fund, we will have an additional $12 million for secondary road construction. We may need additional highway patrolmen for our traffic safety program.

SB 43 - Introduced by Yow

"To enable the guardian or trustee of an incompetent, with judicial approval, to make gifts from the incompetent's income for public, religious, charitable, literary, scientific, historical, medical or educational purposes." [As title indicates. Requires approval of resident judge of Superior Court of district in which guardian or trustee appointed. Approval to be withheld unless judge satisfied that: (1) after making of gifts and payment of federal and state income taxes the remaining income will be reasonable and adequate to provide support, maintenance, comfort and welfare of incompetent and those legally entitled to support from incompetent in manner to which incompetent and dependents are accustomed and in keeping with station of life (in no event less than twice the average of expenditures for the incompetent's support, maintenance, comfort and welfare for 5 calendar years preceding calendar year of gift); (2) each donee is one to which a competent donor can make a gift, without limit as to amount, without incurring federal or state gift tax liability; (3) donee is qualified to receive tax deductible gifts under federal and state income tax laws; (4) aggregate does not exceed percentage of income fixed by federal law as maximum deduction allowable for such gifts in computing federal income tax liability. Judge not to withhold approval merely because incompetent, prior to incompetency, had not made gifts to same donees or had not made other gifts similar in amount or type. Gift made with approval to be deemed gift by incompetent and to be as valid in all respects as if made by competent person.] To Judiciary 1.

SB 44 - Introduced by Yow

"To enable the guardian or trustee of an incompetent, with judicial approval, to make gifts from the principal of the incompetent's estate for public, religious, charitable, literary, scientific, historical, medical or educational purposes." [As title indicates. Requires approval of resident judge of the Superior Court of district in which guardian or trustee appointed. Approval to be withheld unless it appears to judge's satisfaction that: (1) making of gifts will not leave principal estate insufficient to provide reasonable and adequate income for support, maintenance, comfort and welfare of incompetent and those legally entitled to support from incompetent in manner to which incompetent and dependents are accustomed and in keeping with station of life; (2) donee is one to which a competent donor could make a gift, without limit as to amount, without incurring federal or state gift tax liability; (3) donee is qualified to receive tax-deductible gifts under federal and state income tax laws; (4) making of gifts will not jeopardize rights of any creditor of incompetent; (5) it is improbable that incompetent will recover competency during lifetime. If incompetent, prior to being declared incompetent, executed a paper writing with formalities required for a valid will, judge must be satisfied that

specific legacies, bequests or devises of specific amounts of money, income or property will not be jeopardized and all residuary legatees and devisees designated (who would take under the writing if incompetent died contemporaneously with signing of order of approval of such gifts and writing was probated as incompetent's will) and spouse of incompetent have been given at least 10 days' written notice that approval of gifts will be sought and that objection may be filed, within 10 day period, with Clerk of Superior Court of county in which guardian or trustee appointed. If such writing provides for residuary estates to be placed in trust for term of years, with stated amounts of income payable to designated beneficiaries on termination of trust, such designated beneficiaries to be deemed specific legatees and devisees. PUBLIC BILLS INTRODUCED -- SENATE

SB 201 - Introduced by Jordan and others

"To amend the Vehicle Financial Responsibility Act of 1957 so as to eliminate certain reporting, to provide for certification of insurance, to provide penalties for false certification, and for other purposes." [Rewrites GS 20-309 to provide that no self-propelled motor vehicle shall be registered in NC unless owner at time of registration has financial responsibility for operation of vehicle and certifies that he has financial responsibility (now owner must show proof of financial responsibility). Financial responsibility to be liability insurance policy or financial security bond or financial security deposit or by qualification as self-insurer. Owner to maintain financial responsibility throughout period of registration. When financial responsibility is certified to be liability insurance policy, Commissioner of Motor Vehicles may require owner to produce records to prove the fact of such insurance and failure to produce such records to be prima facie evidence that no financial responsibility exists with regard to vehicle concerned (now, Commissioner has authority to require presentation of new or current certificate of insurance by each person registering vehicle at time of registration during any registration year designated in advance by Commissioner). Requires insurance companies, on request of Dept., to verify accuracy of owner's certification. Failure of company to deny coverage within 20 days may be considered by Commissioner as acknowledgment that information submitted is correct. When liability insurance is terminated by cancellation or failure to renew, or owner's financial responsibility for operation is terminated (now, when insurance terminated by cancellation or failure to renew), owner to surrender registration certificate and plates to Dept. unless financial responsibility is maintained in some other manner in compliance with article. Amends GS 20-310 to specify that notice of cancellation or failure to renew be sent by insurer to insured by certified mail at latest address filed with the insurer by or on behalf of policyholder (now, address shown on policy). Eliminates references to "proof of" financial responsibility in GS 20-310, and requires that notice of termination include statement that penalties for operation of vehicle without maintaining financial responsibility are loss of license plate and suspension of driver's license for 30 days, and fine of not less than $200, imprisonment in discretion of court or both (now, must include statement that failure to maintain financial responsibility is misdemeanor). Deletes provision that upon termination of insurance by cancellation or failure to renew notice of cancellation or termination to be mailed to Commissioner by insurer not later than 15 days after effective date of cancellation or termination. Repeals GS 20-310.1 (notice by title holder under conditional sales contract of repossession of motor vehicles). Rewrites GS 20-311 to provide that Dept., on receipt of evidence that financial responsibility is not or was not in

effect at time of operation or certification that insurance was in effect, shall revoke registration and suspend operator's and chauffeur's licenses of owner thereof for 30 days (now, Dept. on receipt of evidence that proof of financial responsibility not in effect, to revoke registration). In no case is vehicle to be re-registered in name of registered owner, spouse, any child or spouse of any child of owner, within less than 30 days after date of revocation. As condition precedent to re-registration of vehicle or reinstatement of operator's licenses of owner, owner to give and maintain proof of financial responsibility for 2 years and to pay appropriate fees for new registration (now, vehicle not to be re-registered until proof of financial responsibility is presented to Dept. and appropriate fees paid). Re-writes GS 20-313 to provide that owner operating or permitting to be operated vehicle without financial responsibility in effect to be guilty of misdemeanor punishable as follows: first offense, fine not less than $200, imprisonment in discretion of court, or both; second offense, fine not less than $400, imprisonment in discretion of court, or both; third and subsequent offenses, fine not less than $500, imprisonment in discretion of court, or both (now, guilty person to be punished for each offense by $10 - $50 fine or imprisonment not to exceed 30 days). PUBLIC BILLS INTRODUCED -- SENATE

SB 212 - Introduced by Long

"To amend G.S. 105-2 so as to clarify the provisions relating to powers of appointment." [Amends GS 105-2(4) to delete reference to imposition of inheritance tax on transfer of any property to any person or corporation transferred pursuant to power of appointment contained in instrument. Rewrites GS 105-2(5) to provide that for purposes of inheritance tax a general power of appointment means a power which is exercisable in favor of decedent, his estate, his creditors or the creditors of his estate (except a power to consume, invade or appropriate property for the benefit of the decedent which is limited by an ascertainable standard relating to the health, education, support, or maintenance of the decedent). Person having general power of appointment with respect to any interest in property to be deemed owner of such interest; transferor of general power in connection with any transfer of property taxable under inheritance tax is deemed to have given such interest to recipient of power, any exercise of such power either by will or by appointment made in contemplation of death of holder of power, or by appointment intended to take effect in possession or enjoyment at or after such death, to be deemed transfer of such interest; any relinquishment of such power by any action taken in contemplation of death or intended to take effect at or after death, or dying without fully exercising such power, to be deemed, to the extent of such relinquishment or nonexercise, to be a transfer of such interest to the person or persons who shall benefit.

Rewrites GS 105-2(6) to provide that neither the exercise nor the relinquishment of special power of appointment (any power other than a general power) with respect to an interest in property, shall be deemed a transfer of such interest. If in connection with any transfer subject to inheritance tax the transferor gives to any person a special power of appointment with respect to any interest in property, transferor is deemed, for the purpose of computing the tax applicable, to have given such interest in equal shares to those persons, not more than 2, among the possible appointees and takers in default of appointment whom the transferor's executor or administrator may designate as transferees in the inheritance tax return (except if gift tax return filed with respect to such transfer, the persons designated therein to be also designated in the inheritance tax return and tax to be computed according to relationship of the donee of the power to the persons designated, if the possible appointees and takers in default of appointment include any persons more closely related to the donee of the power than to the donor, and if such computation would produce a higher tax). Effective July 1, 1963.] To Finance.

SB 213 - Introduced by Long

"To determine the application of gift taxes to the creation, exercise and

relinquishment of powers of appointment." [Adds new GS 105-188.1 to provide that person having general power of appointment (any power of appointment exercisable in favor of person possessing the power, his estate, his creditors, or creditors of his estate, except that a power to consume, invade or appropriate property for the benefit of the possessor which is limited by an ascertainable standard relating to health, education, support, or maintenance of the possessor) with respect to any interest in property shall for gift tax purposes be deemed to be owner of interest. Donor of general power with respect to interest in property is deemed to have made a gift of such interest to the donee of power. If person exercises such power in favor of any other person, one who exercises power is deemed to have made a gift. If person relinquishes such power, he shall be deemed to have made a gift of such interest to the person or persons who benefit.

Neither exercise nor relinquishment of special power of appointment (any power of appointment other than general) with respect to interest in property to be deemed a gift of such interest. If a special power is given in connection with any gift of property, donor to be deemed for gift tax purposes to have given such interest in equal shares to those persons, (not more than 2) among the possible appointees and takers in default of appointment whom the donor or his executor or administrator may designate in the gift tax return filed with respect to such gift; tax to be computed according to the relationship of the donee of the power to the person designated if: (1) possible appointees and takers in default of appointment include any persons more closely related to the donee of the power than to the donor and (2) such computation would produce higher tax. [Amends GS 7-68.1 (offices of additional resident judge for certain judicial districts) to create office of additional resident judge for 21st judicial district. Governor to appoint additional resident judge to take office July 1, 1963; successor to be elected as other judges in 1964 general election, to serve term expiring Jan. 1, 1971; thereafter judge elected as other judges for 8-year term. Amends GS 7-68.3 to give additional judge same authority as other additional resident judges (all judicial powers of senior resident judge, but not appointments and other duties not related to exercise of judicial power).] To Courts and Judicial Districts.

SB 217 - Introduced by Currie

"To authorize counties to levy special assessments for the construction, reconstruction, and extension of water and sewerage systems." [Adds to GS Ch. 153 a new Article 24A, "Special Assessments for Water and Sewerage Facilities." Empowers boards of county commissioners to assess all or part of cost of construction, reconstruction, and extension of water and sewerage systems against property served or subject to being served by construction, etc. (consent of municipal governing body is required before assessments may be levied against property lying within municipal limits). Assessments may be levied on equal rate per foot of abutting frontage, equal rate per acre of land served, equal rate per dollar valuation of unimproved land (as shown on tax assessment records), equal rate per lot, or combination of these bases. If basis is acreage or value, commissioners may lay out benefit zones based on distance from construction, and establish different rates for different zones. Commissioners may establish uniform schedule of corner lot exemptions where project is installed on both sides, subject to maximum exemption of 75% of any side, or 150 feet, whichever is greater. Federal lands and lands within flood plain (flooded at least once every 20 years) are exempt. Board which plans to undertake project and assess part or all of costs must adopt preliminary resolution describing project and assessment plans; resolution must be published and public hearing held. When project is completed, board shall determine costs and have prepared and published a preliminary assessment roll; property owners on roll shall be notified and hearing held, after which roll shall be confirmed (after such modifications as hearing may

produce). After confirmation, assessment is lien to same extent as county and city taxes and is superior to other liens; assessment to be collected by county tax collector in same manner as taxes. Assessments not paid within 30 days after publication of notice of confirmation are subject to 6% per annum interest from date of confirmation. Dissatisfied property owners may appeal to superior court. Commissioners may set aside assessment for irregularity, omission, error or lack of jurisdiction and make reassessment. Property owners may within 30 days after publication of notice of confirmation of assessment roll elect to pay in installments (one per year, with interest, on schedule fixed by commissioners). Fixes 10-year statute of limitations on actions to collect assessments. Failure to pay installment when due makes all installments immediately due, but commissioners may reinstate installment schedule upon payment of amount in arrears plus interest. In case of life tenant or tenant for years, GS 160-95, -96, -97, -98, and -191 apply. Commissioners may hold assessments of any class or classes of property in abeyance, without interest, for up to 10 years, but not after property is actually connected to project; statutes of limitation are suspended during period of abeyance. Board may require owners of improved property located so as to be served by project to connect with system, and may fix charges for connections.] To Finance.

In calculating present value of paid-up term insurance with accompanying pure endowment (offered as nonforfeiture benefit) rates of mortality assumed may be not more than those shown in Commissioners 1961 Industrial Extended Term Insurance Table. For insurance issued on substandard basis, calculation of adjusted premiums and present values may be based on such other table of mortality as may be specified by company and approved by Commissioner. After effective date of act, any company may file with Commissioner written notice of its election to comply with the provisions herein (after specified date before Jan. 1, 1968); provisions to become operative with respect to industrial policies thereafter issued by company; if no election made, operative date to be January 1, 1968. "To amend Article 12 of Chapter 163 of the General Statutes of North Carolina so as to combine challenge day with the last day of registration and to provide the procedure for challenging voters; and to amend GS 163-31 so as to close the registration at the polls at six-thirty p.m. on each Saturday during the registration period." [Rewrites GS 163-78 to provide that on 2nd Saturday preceding each primary and general election, registrar of each precinct to keep registration book open at polling place during hours of registration and also for 1 hour on last Saturday after registration period closes, for the inspection of any electors of the precinct for the purpose of entering challenges to names of any person registered therein. Any elector may file written challenge, signed by elector, to name of any person registered; registrar to write in pencil in registration book opposite name of challenged person "challenged"; challenge to be made only by elector in individual capacity and burden of proof upon challenger to sustain challenge. Written challenge to set forth following: (1) name and address of challenger and challenged, (2) precinct in which challenger is registered, (3) date when challenge is filed, (4) reason for the challenge. Rewrites GS 163-79 to provide that when challenge filed with registrar for any reason (except that elector has moved residence out of county or state) registrar to mail notice to person challenged (notifying such person to appear at polling place at certain hour and day) or have notice served (now, requires personal notice or leaving copy at residence); to also notify challenger to appear at same time and place to prove challenge (otherwise challenge may be dismissed); registrar and judges to be present to hear and decide challenges. When challenge made because elector has moved permanent residence (as defined in GS 163-25) to another state or county, registrar shall not be required to notify challenged (nor set time and place for hearing); registrar to write "challenged" opposite name of challenged in registration book; if such elector should appear at polling place to vote then registrar and judges to pass upon challenge; if challenged satisfies challenge and subscribes to prescribed oath he shall be permitted to vote; in case such person should vote an absentee ballot the provisions of GS 163-62 (relating to challenging of absentee ballots) to apply. In hearing challenge, registrar to explain to challenged the qualifications of elector and to examine challenger as to his proof of elector's disqualification (new provision); if challenged states, under oath, that he is qualified to vote in precinct (now, challenged must prove by testimony, under oath, of at least one elector) then he is to take oath (oath same as present except for affirmation that challenged will be 21 years old by general election); registrar (now, registrar and judges) to administer oath; if person does take oath, his vote to be received (provided registrar and judges are satisfied that he is qualified); if he refuses, vote to be rejected. GS 163-79.1 to make above challenge provisions applicable to counties with a full-time registration system (challenge to be filed with chairman or secretary of county board of elections in office of board not later than 5:00 p.m. on 2nd Monday preceding primary or election); written challenge to set forth similar information as above.

Amends GS 163-168 to delete provision requiring challenged voter's signature on ballots where challenge has been decided in his favor. Amends GS 163-31 to make closing time of books during registration period 6:30 p.m. (now, sunset).] To Election Laws and Legislative Representation.

[Provides for session on Wednesday, May 8, 1963, at 12 noon.] Passed three readings and sent to House.

SB 408 - Introduced by Jordan

"To provide for the regulation of insurance premium financing, providing for the licensing of insurance premium finance companies, providing for insurance premium finance charges, rules, regulations, administrative hearings and penalties." [Adds new GS Ch. 58, Art. 4, entitled "Insurance Premium Financing." Requires persons engaging in business of insurance premium finance company (includes persons in business of entering into premium finance agreements with insureds and persons in business of acquiring such agreements from other premium finance companies) to obtain license from Commissioner of Insurance (license fee: $200 for each year or part thereof for each office where premium finance business is conducted). Requires written application for license on forms prescribed by commissioner; within 60 days commissioner shall issue or refuse license. Commissioner may require examination fee of $100 per office (but not to exceed total of $300 regardless of number of offices) to be paid with application. If license denied, examination fee is retained, but license fee is returned to applicant. Fees to be used to provide personnel, etc., to enforce article; any excess at end of fiscal year reverts to General Fund. Licenses may be denied, suspended, revoked, or not renewed for failure to pay fees, or for violation of commissioner's rules and regulations. Licensees must keep and retain for 3 years proper records and must exhibit them to commissioner or his representative on demand.

Fixes maximum premium finance rates as follows: $10 per annum per $100 computed on principal balance from the inception date of the insurance contract; or, if principal balance is $120 or less, licensee may charge $2 for each $10 of balance not over $40, $1 for each $10 balance between $40 and $70, 50¢ for each $10 of balance between $70 and $120. All charges to be rounded off to nearest dollar, and minimum charge is $3 when balance is less than $20, $6 when balance is between $20 and $120, and $14 when balance is $120 or more. Prohibits agent's inducing insured to become obligated on more than one contract with effect of obtaining service charges in excess of those authorized.

Knowingly charging or receiving excessive charges forfeits entire finance charge; person who has overpaid under such circumstances may recover twice amount of finance charge paid. Prohibits rebates and other inducements to agent, etc., to

obtain finance business (merchandise not exceeding $1 value and bearing premium finance company's advertising may be distributed). Finance agreement forms and charges must be filed with and approved by commissioner. Sets forth in detail required contents of finance agreement forms (minimum size of type, 8 point). Agreements may not contain: (1) maturity acceleration clauses in absence of default of insured, (2) power of attorney to confess judgment in NC, (3) release of agent or company from any legal liability to insured. Sets out duties of company with respect to delivery to insured of agreement, statement of account, and release upon payment in full. Norwithstanding agreement to contrary, insured may prepay before maturity and shall receive rebate of charges according to schedule set out in statute. Sets out procedures governing cancellations where finance agreement contains power enabling finance company to cancel insurance contract upon default of insured. Violation of act or rules and regulations of commissioner made pursuant to act is misdemeanor, punishable by fine of $100 - $500, imprisonment, or both, in discretion of court. Effective Oct. 1, 1963.] To Insurance.

Measure of damages to be amount determined by Committee and NC Wildlife Resources Commission or Department of Conservation and Development (whichever has jurisdiction over subject destroyed); to be the replacement value plus cost of all investigation made or caused to be made in connection therewith. Amends GS 53-2(4) to double existing capital stock requirements for banks to commence business. Rewrites GS 53-62 to define capital as capital stock and unimpaired surplus, and to authorize any bank doing business under GS Ch. 53 to establish branches or teller's windows in municipality where located or elsewhere with written approval of Commissioner of Banks. Commissioner may in his discretion give or withhold approval and shall, in so doing take into account such factors as financial history and condition of bank, adequacy of capital structure, future earning prospects, and general character of its management. Approval not to be given until ascertaining to his satisfaction that proposed branch or teller's window will meet needs and promote convenience of community to be served; probable volume of business and reasonable public demand in community are sufficient to assure and maintain solvency of proposed branch or teller's window, and existing banks in community. Does not apply to branches or teller's windows established or authorized by NC Banking Commission prior to ratification of act, such banks deficient in capital need not provide additional capital for branches or teller's windows established or approved prior to ratification of act until making application for additional branch or window. Upon applying for additional branch or window, sufficient capital and surplus must be allocated to bring parent bank and all branches and teller's windows into compliance with above requirements. Bank may at its option allocate capital stock and/or unimpaired surplus to its branches and teller's windows and may determine proportion of each, or may allocate all capital stock or all unimpaired surplus. Population to be ascertained by last preceding national census; but with respect to branch or teller's window established or approved before ratification of act, population to be ascertained by last national census preceding establishment of such branch. Such teller's windows heretofore or hereafter so established or approved not to be considered in computing capital allocation requirements for parent bank and other branches and teller's windows. Action of commissioner pursuant to act subject to review by State Banking Commission which may approve, modify or disapprove any action taken or recommended by commissioner. HB 1153 - Introduced by Galifianakis

"To provide funds for the employment of additional personnel for the medical care and treatment of patients in State institutions." [Identical to SB 546, digested in the Senate section of today's bulletin.] To Appropriations.

HB 1154 - Introduced by Galifianakis and Uzzell

"To amend and clarify certain statutes relating to the admission to State institutions of inebriate, mentally ill, and mentall retarded persons." [Rewrites laws relating to admissions to mental institutions by (1) separating present Art. 3 of GS Ch. 122 into 5 articles as follows: Art. 3--General Provisions; Art. 4--Voluntary Admissions; Art. 5--Admission by Medical Certification; Art. 6--Emergency Hospitalization; and, Art. 7--Judical Hospitalization (with appropriate renumbering of other articles in GS Ch. 122); (2) combining the provisions for the admission of inebriates with the provisions for the admission of the mentally ill and thereby repealing present Arts. 6 (Detention, Treatment, and Cure of Inebriates) and 8 (Temporary Care and Restraint of Inebriates, Drug Addicts and Persons Insane) of GS Ch. 35; (3) adding new Art. 9 to GS Ch. 122 dealing with centers for the mentally retarded and thereby repealing present Arts. 12 (The Caswell School) and 13A (Negro Training School for Feeble-Minded Children) of Ch. 116 (these transferred to Ch. 122 by SB 72, SL 1963, Ch. 448); (4) redesignating Art. 10 of GS Ch. 35 (Interstate Compact on Mental Health) as Art. 13 of GS Ch. 122; and, (5) redesignating Art. 9 of GS Ch. 35 (Mental Health Council) as Art. 14 of GS Ch. 122.

The terms "inebriate", "mental illness", and "mentally retarded" are redefined and used throughout chapter (thereby deleting all other terms relating to mental illness such as mental disorder, feeble-minded, idiot, etc.). The term "hospitalize" is substituted throughout for "commit", and "county of residence" is referred to instead of "county of settlement". Deletes reference to race as factor in determining hospital to which person is to be admitted. Makes provisions of

GS 35-33 relating to payment for care of inebriate if he or his estate or person responsible for his support is able to do so also applicable to care of mentally ill person. Deletes reference to the furnishing of private apartments, private nurses and other extras to patients upon payment of reasonable cost thereof.

Adds new section relating to rights of patients. Provides that subject to reasonable regulations of State Dept. of Mental Health, patient is entitled to (1) communicate by sealed mail or otherwise with persons outside institution; (2) receive visitors; and, (3) exercise all civil rights (handling business affairs, contracting, voting, etc.) unless he has been adjudicated incompetent under GS Ch. 35 (Guardianship provisions). Reasonable regulations of Dept. are not to prohibit right to communicate with State Dept. of Mental Health or court which ordered hospitalization, or prohibit right to receive attorney if accompanied by medical member of hospital staff. Any limitations imposed by hospital on exercise of rights, and reasons therefor, must be made part of clinical record of patient. Restricts use of mechanical restraining devices to those required by medical needs of patient (now, broader use authorized). Continues members of General Assembly as official visitors of mental institutions but deletes reference to State Board of Public Welfare as official visitors. Makes clear that except for provisions of GS 35-3 (authorizing appointment of guardian on certificate of insanity from superintendent of mental institution), hospitalization and guardianship proceedings are to have no effect on one another.

New Art. 4, dealing with voluntary admissions, deletes from statute form to be used and authorizes State Dept. of Mental Health to prescribe form; makes provisions for voluntary admission of mentally ill apply also to the inebriate; and, makes voluntary admission to private hospitals possible under same procedure as to public hospital, provided private hospital agrees to accept the patient.

New Art. 5, dealing with admission on medical certification, makes provisions for the admission of the mentally ill by medical certification applicable also to the inebriate.

Rewrites emergency hospitalization procedures (Art. 6) to authorize detention for not more than 20 days of any person who, because of overt acts, is believed to be suddenly homicidal or suicidal or dangerous to himself or others (latter is new) upon certification to that effect by one MD who has examined the person within past 24 hours. As alternative procedure, clerk of superior court may order the examination of the allegedly dangerous person or his hospitalization, upon application, if he believes that it would be dangerous to attempt to have the person examined without restraint. Judicial hospitalization procedures, if found necessary, must be instituted within the 20-day period.

New Art. 6, dealing with judicial hospitalization, makes the provisions relating to the mentally ill also applicable to the inebriate; authorizes detention of inebriate and mentally ill pending hearing if affidavit states that he is dangerous to himself or others (except in extreme emergencies, such detention is not to be in a jail--new for inebriates); makes it duty of sheriff to see that order of clerk of court, requiring alleged mentally ill or inebriate person to be examined by two physicians, be carried out; authorizes clerk to have notice of hearing served by member of hospital staff or staff of county health or welfare dept. (as well as sheriff); extends initial hospitalization period for observation to 180 days, thereby deleting provisions for 60 days initially with authority to extend 120 days; deletes authority of clerk to hospitalize for indefinite period at end of observation period solely upon certificate of supt. of institution, and substitutes procedure for notice and hearing (in county where institution located) before indefinite hospitalization (unless patient waives same after notice); provides that all hearings regarding persons already in hospitals are to be held by CSC of county where institution is located.

Adds new Art. 9 relating to centers for mentally retarded. Provides that Caswell, O'Berry, Murdoch, Western Carolina and other residential centers for treatment of mentally retarded established by State are to be under jurisdiction of State Dept. of Mental Health. Sets out objects of centers. Authorizes Dept. to adopt regulations governing operation of centers and admissions thereto (except that application for

admission of persons under 21 must be made by parent or guardian). Adults or persons liable for support of minors must pay for care if able to do so. Sets out discharge procedures. Makes it a misdemeanor to commit certain acts, designed to protect patients of centers, and a felony to commit others (acts and penalty provisions substantially same as those in present GS 116-137 relating to Caswell School).

Deletes from GS 122-79 limitation of minimum of 30 days and maximum of 6 months on involuntary hospitalization of inebriate in private hospital. Amends GS 110-38 to authorize juvenile court to appoint some person to make application for admission to a center for the retarded of a child found by the court to be mentally retarded (now, court can commit directly). Amends GS 35-68 to delete requirement of approval by superior court before Compact Administrator may take action toward transferring a patient in an institution in this state to another state. Amends GS 122-91 to provide for indefinite hospitalization of alleged criminals (who have been hospitalized for observation and found to need such indefinite hospitalization) in accordance with procedure for judicial hospitalization of one already in a hospital (rather than by superior court judge). Effective July 1, 1963.] To Mental Institutions.

SUMMARY OF GOVERNOR SANFORD'S ADDRESS TO THE 1963 EXTRA SESSION

Governor Sanford praised the General Assembly for its solid record of achievement during the regular session. He pointed out that the General Assembly recognized that it had failed at its regular session in its efforts to redistrict the Senate, but that the General Assembly had, by requesting the extra session, indicated that it recognized its responsibilities and intended to discharge them.

Governor Sanford stated that the bill which his office had prepared was a bill which had been written by the members themselves in the series of conferences held over the state. He stated that the bill /SB 2, HB 2/ would redistrict the state in compliance with the North Carolina Constitution.

The Governor stated that his office was not offering a constitutional amendment because it had not been able to obtain the requisite number of sponsors to pass a bill embodying a constitutional amendment. He was not, however, opposed to an amendment, and he suggested that an amendment would be worth while if it provided a more specific standard for senate districting and if it provided for some kind of automatic redistricting to take effect only in the event the legislature was unable to agree on a satisfactory redistricting after each federal census.
